Specification of the controlled designation of origin "BEAUJOLAIS"

CHAPTER I

I. – Name of the designation

Only wines meeting the specific provisions set out below may claim the controlled designation of origin "Beaujolais", initially recognised by the decree of 12 September 1937.

II. – Geographical denominations and complementary terms

1° – The name of the controlled designation of origin may be followed by the mention "supérieur" for wines meeting the production conditions laid down for this mention in the present specification.

2° – The name of the controlled designation of origin may be followed by the mention "Villages" for wines meeting the production conditions laid down for this mention in the present specification.

3° – The name of the controlled designation of origin may be followed by the name of the commune of origin of the grapes for wines meeting the production conditions laid down in the present specification.

4° – The name of the controlled designation of origin, whether or not followed by the mention "Villages" or by the name of the commune of origin of the grapes, may be supplemented by the mention "primeur" or "nouveau" for wines meeting the conditions laid down for this mention in the present specification.

III. – Colour and types of product

The controlled designation of origin "Beaujolais", whether or not followed by the mention "Villages" or by the name of the commune of origin of the grapes, is reserved for still white, rosé and red wines.

The mention "supérieur" is reserved for red wines.

The mention "primeur" or "nouveau" is reserved for rosé and red wines.

IV. – Areas and zones in which the various operations are carried out

1° – Geographical area

a) – The harvesting of the grapes, the vinification and the elaboration of the wines are carried out within the territory of the following communes:

- Rhône department: Alix, Anse, L'Arbresle, Les Ardillats, Arnas, Bagnols, Beaujeu, Belleville, Belmont-d'Azergues, Blacé, Le Bois-d'Oingt, Le Breuil, Bully, Cercié, Chambost-Allières, Chamelet, Charentay, Charnay, Châtillon, Chazay-d'Azergues, Chénas, Chessy, Chiroubles, Cogny, Corcelles-en-Beaujolais, Dareizé, Denicé, Emeringes, Fleurie, Frontenas, Gleizé, Jarnioux, Juliénas, Jullié, Lacenas, Lachassagne, Lancié, Lantignié, Légny, Létra, Liergues, Limas, Lozanne, Lucenay, Marchampt, Marcy, Moiré, Montmelas-Saint-Sorlin, Morancé, Nuelles, Odenas, Oingt, Les Olmes, Le Perréon, Pommiers, Pouilly-le-Monial, Quincié-en-Beaujolais, Régnié-Durette, Rivolet, Saint-Clément-sur-Valsonne, Saint-Cyr-le-Chatoux, Saint-Didier-sur-Beaujeu, Saint-Etienne-des-Oullières, Saint-Etienne-la-Varenne, Saint-Georges-de-Reneins, Saint-Germain-sur-l'Arbresle, Saint-Jean-d'Ardières, Saint-Jean-des-Vignes, Saint-Julien, Saint-Just-d'Avray, Saint-Lager, Saint-Laurent-d'Oingt, Saint-Loup, Saint-Romain-de-Popey, Saint-Vérand, Sainte-Paule, Salles-Arbuissonnas-en-Beaujolais, Sarcey, Ternand, Theizé, Vaux-en-Beaujolais, Vauxrenard, Vernay, Ville-sur-Jarnioux and Villié-Morgon;

- Saône-et-Loire department: Chaintré, Châtenay, La Chapelle-de-Guinchay, Chasselas, Crêches-sur-Saône, Leynes, Pruzilly, Romanèche-Thorins, Saint-Amour-Bellevue, Saint-Symphorien-d'Ancelles and Saint-Vérand.

b) – For the mention "Villages", the harvesting of the grapes, the vinification and the elaboration of the wines are carried out within the territory of the following communes:

- in the Rhône department: Les Ardillats, Beaujeu, Blacé, Cercié, Charentay, Chénas, Chiroubles, Denicé, Emeringes, Fleurie, Juliénas, Jullié, Lancié, Lantignié, Marchampt, Montmelas-Saint-Sorlin, Odenas, Le Perréon, Quincié-en-Beaujolais, Régnié-Durette, Rivolet, Saint-Didier-sur-Beaujeu, Saint-Etienne-des-Oullières, Saint-Etienne-la-Varenne, Saint-Julien, Saint-Lager, Salles-Arbuissonnas-en-Beaujolais, Vaux-en-Beaujolais, Vauxrenard, Villié-Morgon;

- in the Saône-et-Loire department: Châtenes, La Chapelle-de-Guinchay, Leynes, Pruzilly, Romanèche-Thorins, Saint-Amour-Bellevue, Saint-Symphorien-d'Ancelles, Saint-Vérand.

c) – The harvesting of the grapes, the vinification and the elaboration of wines eligible for the controlled designation of origin "Beaujolais" followed by the name of the commune of origin of the grapes are carried out within the territory of the following communes:

- in the Rhône department: Les Ardillats, Beaujeu, Blacé, Cercié, Charentay, Denicé, Emeringes, Jullié, Lancié, Lantignié, Marchampt, Montmelas-Saint-Sorlin, Odenas, Le Perréon, Quincié-en-Beaujolais, Rivolet, Saint-Didier-sur-Beaujeu, Saint-Etienne-des-Oullières, Saint-Etienne-la-Varenne, Saint-Julien, Saint-Lager, Salles-Arbuissonnas-en-Beaujolais, Vaux-en-Beaujolais, Vauxrenard;

- in the Saône-et-Loire department: Châtenes, La Chapelle-de-Guinchay, Leynes, Pruzilly, Romanèche-Thorins, Saint-Symphorien-d'Ancelles.

2° – Delimited parcel area

The wines come exclusively from vines situated within the delimited parcel production area as approved by the National Institute of Origin and Quality at the sessions of the competent national committee of 9 and 10 February 1972, 4 and 5 June 1980, 11 and 12 September 1985, 17 September 1986, 2 and 3 June 1988, 22 and 23 February 1989, 8 and 9 November 1989, 18 and 19 May 1995, 27 and 28 May 1998, 22 and 23 May 2003 and 9 March 2005. The National Institute of Origin and Quality lodges with the town halls of the communes referred to in 1° the graphic documents establishing the parcel boundaries of the production area thus approved.

3° – Immediate proximity area

a) – The immediate proximity area, defined by derogation for the vinification and the elaboration of the wines, is made up of the territory of the following communes:

- Côte-d'Or department: Agencourt, Aloxe-Corton, Ancey, Arcenant, Argilly, Autricourt, Auxey-Duresses, Baubigny, Beaune, Belan-sur-Ource, Bévy, Bissey-la-Côte, Bligny-lès-Beaune, Boncourt-le-Bois, Bouix, Bouze-lès-Beaune, Brion-sur-Ource, Brochon, Cérilly, Chamboeuf, Chambolle-Musigny, Channay, Charrey-sur-Seine, Chassagne-Montrachet, Châtillon-sur-Seine, Chaumont-le-Bois, Chaux, Chenôve, Chevannes, Chorey-lès-Beaune, Clémencey, Collonges-lès-Bévy, Combertault, Comblanchien, Corcelles-les-Arts, Corcelles-les-Monts, Corgoloin, Cormot-le-Grand, Corpeau, Couchey, Curley, Curtil-Vergy, Daix, Dijon, Ebaty, Echevronne, Epernay-sous-Gevrey, L'Etang-Vergy, Etrochey, Fixin, Flagey-Echézeaux, Flavignerot, Fleurey-sur-Ouche, Fussey, Gerland, Gevrey-Chambertin, Gilly-lès-Cîteaux, Gommeville, Grancey-sur-Ource, Griselles, Ladoix-Serrigny, Lantenay, Larrey, Levernois, Magny-lès-Villers, Mâlain, Marcenay, Marey-lès-Fussey, Marsannay-la-Côte, Massingy, Mavilly-Mandelot, Meloisey, Merceuil, Messanges, Meuilley, à l'avis de sa commission permanente du 9 septembre 2010 Meursanges, Meursault, Molesme, Montagny-lès-Beaune, Monthelie, Montliot-et-Courcelles, Morey-Saint-Denis, Mosson, Nantoux, Nicey, Noiron-sur-Seine, Nolay, Nuits-Saint-Georges, Obtrée, Pernand-Vergelesses, Perrigny-lès-Dijon, Plombières-lès-Dijon, Poinçon-lès-Larrey, Pommard, Pothières, Premeaux-Prissey, Prusly-sur-Ource, Puligny-Montrachet, Quincey, Reulle-Vergy, La Rochepot, Ruffey-lès-Beaune, Saint-Aubin, Saint-Bernard, Saint-Philibert, Saint-Romain, Sainte-Colombe-sur-Seine, Sainte-Marie-la-Blanche, Santenay,

Savigny-lès-Beaune, Segrois, Tailly, Talant, Thoires, Vannaire, Vauchignon, Velars-sur-Ouche, Vertault, Vignoles, Villars-Fontaine, Villebichot, Villedieu, Villers-la-Faye, Villers-Patras, Villy-le-Moutier, Vix, Volnay, Vosne-Romanée and Vougeot;

- Rhône department: Dracé, Taponas and Villefranche-sur-Saône;

- Saône-et-Loire department: Aluze, Ameugny, Azé, Barizey, Beaumont-sur-Grosne, Berzé-la-Ville, Berzé-le-Châtel, Bissey-sous-Cruchaud, Bissy-la-Mâconnaise, Bissy-sous-Uxelles, Bissy-sur-Fley, Blanot, Bonnay, Bouzeron, Boyer, Bray, Bresse-sur-Grosne, Burgy, Burnand, Bussières, Buxy, Cersot, Chagny, Chalon-sur-Saône, Chamilly, Champagny-sous-Uxelles, Champforgeuil, Change, Chapaize, La Chapelle-de-Bragny, La Chapelle-sous-Brancion, Charbonnières, Chardonnay, La Charmée, Charnay-lès-Mâcon, Charrecey, Chassey-le-Camp, Château, Châtenoy-le-Royal, Chaudenay, Cheilly-lès-Maranges, Chenôves, Chevagny-les-Chevrières, Chissey-lès-Mâcon, Clessé, Cluny, Cormatin, Cortambert, Cortevaix, Couches, Créot, Cruzille, Culles-les-Roches, Curtil-sous-Burnand, Davayé, Demigny, Dennevy, Dezize-lès-Maranges, Donzy-le-National, Donzy-le-Pertuis, Dracy-le-Fort, Dracy-lès-Couches, Epertully, Etrigny, Farges-lès-Chalon, Farges-lès-Mâcon, Flagy, Fleurville, Fley, Fontaines, Fuissé, Genouilly, Germagny, Givry, Granges, Grevilly, Hurigny, Igé, Jalogny, Jambles, Jugy, Jully-lès-Buxy, Lacrost, Laives, Laizé, Lalheue, Lournand, La Loyère, Lugny, Mâcon, Malay, Mancey, Martailly-lès-Brancion, Massilly, Massy, Mellecey, Mercurey, Messey-sur-Grosne, Milly-Lamartine, Montagny-lès-Buxy, Montbellet, Montceaux-Ragny, Moroges, Nanton, Ozenay, Paris-l'Hôpital, Péronne, Pierreclos, Plottes, Préty, Prissé, Remigny, La Roche-Vineuse, Rosey, Royer, Rully, Saint-Albain, Saint-Ambreuil, Saint-Boil, Saint-Clément-sur-Guye, Saint-Denis-de-Vaux, Saint-Désert, Saint-Gengoux-de-Scissé, Saint-Gengoux-le-National, Saint-Germain-lès-Buxy, Saint-Gervais-sur-Couches, Saint-Gilles, Saint-Jean-de-Trézy, Saint-Jean-de-Vaux, Saint-Léger-sur-Dheune, Saint-Mard-de-Vaux, Saint-Martin-Belle-Roche, Saint-Martin-du-Tartre, Saint-Martin-sous-Montaigu, Saint-Maurice-de-Satonnay, Saint-Maurice-des-Champs, Saint-Maurice-lès-Couches, Saint-Pierre-de-Varennes, Saint-Rémy, Saint-Sernin-du-Plain, Saint-Vallerin, Saint-Ythaire, Saisy, La Salle, Salornay-sur-Guye, Sampigny-lès-Maranges, Sancé, Santilly, Sassangy, Saules, Savigny-sur-Grosne, Senneceley-le-Grand, Senozan, Sercy, Serrières, Sigy-le-Châtel, Sologny, Solutré-Pouilly, Taizé, Tournus, Uchizy, Varennes-lès-Mâcon, Vaux-en-Pré, Vergisson, Vers, Verzé, Le Villars, La Vineuse, Vinzelles and Viré;

- Yonne department: Accolay, Aigremont, Annay-sur-Serein, Arcy-sur-Cure, Asquins, Augy, Auxerre, Avallon, Bazarnes, Beine, Bernouil, Béru, Bessy-sur-Cure, Bleigny-le-Carreau, Censy, Chablis, Champlay, Champs-sur-Yonne, Champvallon, Chamvres, La Chapelle-Vaupelteigne, Charentenay, Châtel-Gérard, Chemilly-sur-Serein, Cheney, Chevannes, Chichée, Chitry, Collan, Coulangeron, Coulanges-la-Vineuse, Courgis, Cravant, Cruzy-le-Châtel, Dannemoine, Dyé, Epineuil, Escamps, Escolives-Sainte-Camille, Fleys, Fontenay-près-Chablis, Gy-l'Evêque, Héry, Irancy, Island, Joigny, Jouancy, Junay, Jussy, Lichères-près-Aigremont, Lignorelles, Ligny-le-Châtel, Lucy-sur-Cure, Maligny, Mélisey, Merry-Sec, Migé, Molay, Molosmes, Montigny-la-Resle, Mouffy, Moulins-en-Tonnerrois, Nitry, Noyers, Ouanne, Paroy-sur-Tholon, Pasilly, Pierre-Perthuis, Poilly-sur-Serein, Pontigny, Préhy, Quenne, Roffey, Rouvray, Sacy, Saint-Bris-le-Vineux, Saint-Cyr-les-Colons, Saint-Père, Sainte-Pallaye, Sainte-Vertu, Sarry, Senan, Serrigny, Tharoiseau, Tissey, Tonnerre, Tronchoy, Val-de-Mercy, Vallan, Venouse, Venoy, Vermenton, Vézannes, Vézelay, Vézinnes, Villeneuve-Saint-Salves, Villiers-sur-Tholon, Villy, Vincelles, Vincelottes, Viviers, Volgré and Yrouerre.

b) – For the mention "Villages", the immediate proximity area, defined by derogation for the vinification and the elaboration of the wines, is made up of the territory of the communes listed in point IV 1° a) and in point IV 3° a), excluding the communes listed in point IV 1° b).

c) – The immediate proximity area, defined by derogation for the vinification and the elaboration of wines eligible for the controlled designation of origin "Beaujolais" followed by the name of the commune of origin of the grapes, is made up of the territory of the communes listed in point IV 1° a) and in point IV 3° a), excluding the communes listed in point IV 1° c).

V. – Grape varieties

1° – Grape varieties

a) – White wines are produced from the chardonnay B variety alone.

b) – Red and rosé wines are produced from the following varieties:

- main variety: gamay N;

- accessory varieties: aligoté B, chardonnay B, gamay de Bouze N, gamay de Chaudenay N, melon B, pinot gris G and pinot noir N.

2° – Proportion rules on the holding

Compliance of the varietal composition is assessed, for the colour concerned, over all the parcels of the holding producing the wine of the appellation.

- The proportion of the accessory varieties gamay de Bouze N and gamay de Chaudenay N, together or separately, is less than or equal to 10 % of the planting.

- The other accessory varieties are authorised only as mixed plantings within the vines, and their total proportion is limited to 15 % within each parcel.

VI. – Management of the vineyard

1° – Training methods

a) – Planting density

The vines have a minimum planting density of 5,000 plants per hectare. The spacing between rows may not exceed 2.50 metres and the spacing between plants within the same row may not be less than 0.80 metre. From the date of approval of the present specification, the grubbing-up of rows within a parcel may not lead to a spacing between the widest rows of more than 3 metres.

b) – Pruning rules

Pruning is completed by 15 May.

The wines come from vines pruned according to the following provisions:

COLOUR OF THE WINES	**PRUNING RULES**
White wines	– either simple Guyot pruning with a maximum of 8 free eyes on the cane and one spur with a maximum of 2 free eyes; – or the so-called "taille à queue du Mâconnais" pruning: each plant bears one cane with a maximum of 12 free eyes and one spur with a maximum of 2 free eyes.
Red and rosé wines	With a maximum of 10 free eyes per plant: – either short pruning (trained in gobelet, fan, or single, double or "charmet" Royat cordon) with 3 to 5 spurs with a maximum of 2 free eyes each. With a view to rejuvenation, each plant may also bear a spur with a maximum of 2 free eyes pruned on a water shoot growing from old wood; – or simple Guyot pruning, with a maximum of 6 free eyes on the cane and one spur with a maximum of 2 free eyes; – or with 2 short canes with a maximum of 3 free eyes each. During formative pruning or a change of pruning method, the vines are pruned with a maximum of 12 free eyes per plant.

c) – Trellising and foliage height rules

COLOUR OF THE WINES	**TRELLISING AND FOLIAGE HEIGHT RULES**
White wines	The vines are trained on a fixed trellis. The trellising is careful, solid and inert, with at least one carrying wire and one pair of lifting wires. The height of trellised foliage must be at least equal to 0.6 times the average spacing between rows, the height of trellised foliage being measured between the lower limit of the foliage, set at least 0.30 metre above the ground, and the upper trimming limit, set at least 0.20 metre above the upper trellising wire(s).
Red and rosé wines	a) – Where the average spacing between rows is greater than or equal to 1.50 metres, the vines are trained on a fixed trellis. b) – The trellising is careful, solid and inert, with at least one carrying wire and one pair of lifting wires. c) – The height of trellised foliage must be at least equal to 0.6 times the average spacing between rows, the height of trellised foliage being measured between the lower limit of the foliage, set at least 0.30 metre above the ground, and the upper trimming limit, set at least 0.20 metre above the upper trellising wire(s). d) – For untrellised vines, the height of foliage must also be at least equal to 0.6 times the average spacing between rows, the height of foliage being measured from at least 0.10 metre above the ground.

d) – Average maximum load per parcel

The average maximum load per parcel is set at:

- 11,000 kilograms per hectare for white wines;

- 10,000 kilograms per hectare for red and rosé wines.

e) – Threshold of missing vines

The percentage of dead or missing vine plants referred to in Article D. 644-22 of the Rural Code is set at 20 %.

f) – Cultivation condition of the vine

The parcels are managed so as to ensure a good overall cultivation condition of the vine, in particular its sanitary condition and the upkeep of its soil.

g) – Establishment and planting of the vineyard

Before each new planting, every operator must carry out a physico-chemical analysis of the soil of the parcel in order to have all the information needed to know the wine-growing situation and its potential.

2° – Other cultivation practices

a) – In order to preserve the characteristics of the soils, which constitute a fundamental element of the terroir:

- Permanent grass cover of the headlands is compulsory.

- Where the spacing between rows is greater than 1.50 metres, the inter-row must have a controlled plant cover, spontaneous or sown, at least during winter and early spring.

- Any substantial modification of the morphology, the subsoil, the arable layer or the structuring elements of the landscape of a parcel intended for the production of the controlled designation of origin is prohibited, with the exception of classic deep-ploughing works.

b) – Vine plantings and replacements may only be made with healthy plant material that has undergone hot-water treatment or any other method making it possible to combat flavescence dorée.

3° – Irrigation

Irrigation is prohibited.

VII. – Harvest, transport and ripeness of the grapes

1° – Harvest

a) – The wines come from grapes harvested at good ripeness. The date on which the harvest begins is set in accordance with the provisions of Article D. 644-24 of the Rural Code.

b) – Particular harvesting provisions

No particular provision.

c) – Particular provisions for transport of the harvest

In the case of mechanical harvesting of parcels intended to produce red or rosé wines:

- the height of the harvest in the containers used to transport it from the parcel to the vinification cellar does not exceed 0.50 metre;

- the containers are made of inert, food-grade material;

- the harvesting and harvest-transport equipment must have an appropriate water-drainage or protection system;

- sorting of the harvest is compulsory. It may be carried out either in the vineyard or at the winery, provided suitable equipment can be shown. Sorting is defined as the removal or separation of bunches of grapes or berries affected by disease (botrytis, powdery mildew, etc.) or of insufficiently ripe bunches and berries.

For parcels intended to produce wines eligible for the mention "primeur" or "nouveau", the harvest is transported under conditions that protect the grapes from oxidation and maintain their quality potential. These transport conditions are the subject of a classification of operators according to the procedures defined in the control or inspection plan.

2° – Ripeness of the grapes

The sugar content of the grapes and the natural alcoholic strengths by volume meet the following characteristics:

APPELLATION, MENTION, COLOUR OF THE WINES	**MINIMUM SUGAR CONTENT OF THE GRAPES (grams per litre of must)**	**MINIMUM NATURAL ALCOHOLIC STRENGTH BY VOLUME**
AOC "Beaujolais"		
White wines	170	10.5 %
Rosé wines	161	10.0 %
Red wines	171	10.0 %
Wines eligible for the mention "supérieur"	180	10.5 %
AOC "Beaujolais" followed by the mention "Villages" or by the name of the commune of origin of the grapes		
White wines	178	11.0 %
Rosé wines	170	10.5 %

APPELLATION, MENTION, COLOUR OF THE WINES	MINIMUM SUGAR CONTENT OF THE GRAPES (grams per litre of must)	MINIMUM NATURAL ALCOHOLIC STRENGTH BY VOLUME
Red wines	180	10.5 %

VIII. – Yields – Entry into production

1° – Yield and limit yield

a) – The yield and limit yield referred to in Article D. 644-25 of the Rural Code are set at:

APPELLATION, MENTION, COLOUR OF THE WINES	YIELD (hectolitres per hectare)	LIMIT YIELD (hectolitres per hectare)
AOC "Beaujolais"		
White wines	68	75
Rosé and red wines	60	65
Wines eligible for the mention "supérieur"	58	63
AOC "Beaujolais" followed by the mention "Villages" or by the name of the commune of origin of the grapes		
White wines	66	73
Rosé and red wines	58	63

2° – Entry into production of young vines

The benefit of the controlled designation of origin may only be granted to wines coming from:

- parcels of young vines only from the 2nd year following that in the course of which planting was carried out in place before 31 July;

- parcels of young vines only from the 1st year following that in the course of which grafting in place was carried out before 31 July;

- parcels of vines that have been top-grafted, at the earliest in the 1st year following that in the course of which the top-grafting was carried out before 31 July, and once the parcels no longer contain any varieties other than those permitted for the appellation. By derogation, in the year following that in the course of which the top-grafting was carried out before 31 July, the varieties permitted for the appellation may represent only 80 % of the planting of each parcel concerned.

IX. – Processing, elaboration, packaging and storage

1° – General provisions

The wines are vinified in accordance with local, fair and constant usages.

a) – Reception and pressing

No particular provision.

b) – Blending of varieties

- Where wines are produced from parcels planted with accessory varieties, the wines are vinified by blending the grapes concerned.

- The proportion of the gamay de Bouze N and gamay de Chaudenay N varieties, together or separately, is less than or equal to 10 % of the blend.

c) – Malolactic fermentation

At the packaging stage, red wines have a maximum malic acid content of 0.4 gram per litre.

d) – Analytical standards

COLOUR OF THE WINES, MENTION	**FERMENTABLE SUGAR CONTENT AND STAGE AT WHICH THE VALUE APPLIES**	**VOLATILE ACIDITY CONTENT AND STAGE AT WHICH THE VALUE APPLIES**
Rosé wines eligible for the mention "primeur" or "nouveau"	Less than or equal to 3 grams per litre (finished wines ready to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code)	Less than or equal to 10.2 milliequivalents per litre (non-packaged lot)
Red wines eligible for the mention "primeur" or "nouveau"	Less than 2 grams per litre (finished wines ready to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code)	Less than or equal to 10.2 milliequivalents per litre (non-packaged lot)
White, red or rosé wines, wines eligible for the mention "supérieur", wines eligible for the mention "Villages" or for the name of the commune of origin of the grapes	Less than or equal to 3 grams per litre (finished wines ready to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code)	Less than or equal to 14.17 milliequivalents per litre (finished wines ready to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code)

e) – Oenological practices and physical treatments

- Subtractive enrichment techniques (TSE) are authorised for red wines within the limit of a maximum concentration rate of 10 %.

- For the elaboration of rosé wines, the use of oenological charcoal, alone or mixed in preparations, is prohibited.

- After enrichment, the total alcoholic strength by volume of the wines meets the following characteristics: the wines do not exceed, after enrichment, the following total alcoholic strength by volume:

APPELLATION, MENTION, COLOUR OF THE WINES	**TOTAL ALCOHOLIC STRENGTH BY VOLUME**
AOC "Beaujolais"	
White wines	13 %
Rosé and red wines	12.5 %
Wines eligible for the mention "supérieur"	13 %
AOC "Beaujolais" followed by the mention "Villages" or by the name of the commune of origin of the grapes	
White wines	13.5 %
Rosé and red wines	13.0 %

f) – Prohibited equipment

No particular provision.

g) – Overall vat capacity

The overall vat capacity is at least equivalent to the product of the area in production under the controlled designation of origin and the yield set in point VIII (1°).

h) – Temperature control

- The vinification cellar must offer sufficient conditions for controlling the temperature of the vinification vats.

- The vats used to vinify grapes from mechanical harvesting are equipped with fermentation temperature regulation systems.

i) – Good overall state of upkeep of the cellar (floors and walls) and of the equipment (hygiene)

The cellar (floors and walls) and the vinification equipment are in a good general state of upkeep.

2° – Provisions by type of product

Wines eligible for the mention "primeur" or "nouveau" come exclusively from grapes harvested in the same year.

3° – Provisions relating to packaging

a) – For every packaged lot, the operator keeps available for the approved control body:

- the information appearing in the register of handling operations referred to in Article D. 644-36 of the Rural Code;

- the reports of analyses carried out before packaging. The reports are kept for a period of six months from the date of packaging.

b) – Containers for volumes of 1.5 litres or less are made of glass.

4° – Provisions relating to storage

a) – The operator provides evidence of a specific place for storing packaged products. The temperature of the storage premises is controlled by suitable insulation and must be less than or equal to 25 °C. The premises are equipped with temperature-measuring equipment.

b) – The temperature of the containers during the keeping of the wines must be controlled and less than or equal to 25 °C.

5° – Provisions relating to the circulation of products and placing on the market for the consumer

a) – Date of placing on the market for the consumer

The wines are placed on the market for the consumer in accordance with the provisions of Article D. 644-35 of the Rural Code.

b) – Period during which the wines may not circulate between authorised warehousekeepers

Wines eligible for the mention "primeur" or "nouveau" may only circulate between authorised warehousekeepers from the thirty-eighth day preceding the third Thursday of November of the year of harvest.

X. – Link with the geographical area

1° – Information on the geographical area

a) – Description of the natural factors contributing to the link

b) – Description of the human factors contributing to the link

2° – Information on the quality and characteristics of the product

3° – Causal interactions

(No text in this version.)

XI. – Transitional measures

1° – Delimited parcel area

In the following communes of the Saône-et-Loire department: Chaintré, Châtenay, La Chapelle-de-Guinchay, Chasselas, Crêches-sur-Saône, Leynes, Romanèche-Thorins and Saint-Symphorien-d'Ancelles, the parcels planted with vines that are excluded from the delimited parcel area of the controlled designation of origin continue to benefit, for their harvest, from the right to the controlled designation of origin until they are grubbed up and at the latest up to and including the 2013 harvest, provided that they meet the conditions laid down by the present specification. These parcels are identified by their cadastral references, their area and their varieties on a list approved by the competent national committee of the National Institute of Origin and Quality at its session of 9 and 10 September 1999.

2° – Grape varieties, proportion rules on the holding and blending of varieties

a) – Vine parcels in place on 28 November 2004 planted with the aligoté B variety continue to benefit, for their harvest, from the right to the controlled designation of origin (white wines) up to and including the 2024 harvest.

b) – Up to and including the 2015 harvest, the proportion of the pinot noir N variety, as an accessory variety, is less than or equal to 15 % of the planting of the holding, without necessarily being present as mixed plantings within the vines. Wines made from this variety must be blended with the main variety, in a proportion of less than or equal to 15 % of the blend of the wines.

3° – Planting density

For the production of red and rosé wines, except for the controlled designation of origin "Beaujolais" followed by the mention "Villages" or by the name of the commune of origin of the grapes, and up to and including the 2013 harvest, the partial grubbing-up of vine parcels in place on 28 November 2004 is authorised, which may lead, after adaptation, to a minimum planting density of 4,000 plants per hectare. These vine parcels continue to benefit, for their harvest, from the right to the controlled designation of origin until they are grubbed up and up to and including the 2034 harvest. The spacing between rows may not exceed 2.80 metres and the spacing between plants within the same row may not exceed 1.10 metres. These vines are permanently trellised; the height of foliage must be at least equal to 0.5 times the average spacing between rows.

4° – Pruning rules

For vine parcels in place before 31 August 1975 and pruned according to the so-called "taille à queue du Mâconnais", each plant may bear 2 canes of 12 developed eyes each, each plant then being unable to bear more than 28 developed eyes.

5° – Trellising and foliage height rules

a) – Vine parcels in place on the date of approval of the present specification, intended for the production of rosé and red wines, and with an average spacing between rows of between 2.30 metres and 2.80 metres, have a height of trellised foliage which must be at least equal to 0.5 times the average spacing between rows, the height of trellised foliage being measured from the lower trellising wire, set at least 0.30 metre above the ground, to the upper trimming limit, set at least 0.20 metre above the upper trellising wire(s).

b) – The provision relating to the obligation of a carrying wire does not apply to vine parcels in place on the date of approval of the present specification and pruned with spurs.

6° – Average maximum load per parcel and volume eligible for the right to the controlled designation of origin

The average maximum load per parcel of parcels intended for the production of rosé and red wines and with a planting density of between 4,000 and 5,000 plants per hectare after adaptation by partial grubbing-up is set at 8,000 kilograms per hectare. The volume that may benefit from the right to the controlled designation of origin is established on the basis of the yield authorised for the controlled designation of origin, for the harvest concerned, multiplied by a coefficient of 0.9.

XII. – Rules of presentation and labelling

1° – General provisions

Wines for which, under the terms of the present specification, the controlled designation of origin "Beaujolais", "Beaujolais" followed by the mention "supérieur", or "Beaujolais" followed by the mention "Villages" or by the name of the commune of origin of the grapes is claimed and which are presented under the said appellation may not be declared after the harvest, offered to the public, dispatched, put up for sale or sold unless, in the harvest declaration, in advertisements, on leaflets, labels, invoices and any containers whatsoever, the aforesaid controlled designation of origin is entered, accompanied by the words "Appellation d'origine contrôlée", the whole in very conspicuous characters.

2° – Particular provisions

a) – Wines eligible for the mention "primeur" or "nouveau" must be presented with the vintage.

b) – The name of the commune of origin of the grapes is entered immediately after the name of the controlled designation of origin.

CHAPTER II

I. – Declaration obligations

1. Declaration of intention to produce (wines eligible for the mention "primeur" or "nouveau")

Every operator lodges with the defence and management body a declaration of intention to produce before (1 June) of the year of harvest. This declaration specifies in particular:

- the identity of the operator;

- the EVV or SIRET number;

- for the parcel(s) concerned: the cadastral reference and the area.

2. Claim declaration

The claim declaration must be sent to the approved control body within a time limit set in the control or inspection plan, which may not be later than 31 December of the year of harvest. The approved control body transmits the information to the defence and management body without delay.

For operators producing wines with the mention "primeur" or "nouveau", a partial claim declaration covering all the wines with the mention "primeur" or "nouveau" may be lodged once only, before a date set in the control or inspection plan and at the latest on 31 December of the year of harvest.

It indicates in particular:

- the designation claimed;

- the mention "primeur" or "nouveau", or "supérieur", or "Villages", or the name of the commune of origin of the grapes, where applicable;

- the volume of the wine;

- the EVV or SIRET number;

- the name and address of the applicant;

- the place of storage of the wine.

It is accompanied by a copy of the harvest declaration and, as the case may be, a copy of the production declaration or an extract of the stock accounts for buyers of grapes and musts.

3. Declaration prior to transaction and collection

Every operator must declare each bulk transaction to the approved control body within time limits set in the control or inspection plan of between five and fifteen working days before any collection of the product. It specifies in particular:

- the identity of the operator;

- the EVV or SIRET number;

- the identification of the lot;

- the volume of the lot;

- the identification of the containers for non-packaged wines;

- the identity of the buyer;

- the number of the interprofessional purchase contract, where applicable.

In the case of collections of volumes smaller than those set out in the transaction declaration, the operator must inform the approved control body in writing.

4. Declaration of release for consumption within the meaning of Article D. 644-36-I of the Rural Code

Each lot of wine intended for release for consumption within the meaning of Article D. 644-36-I of the Rural Code must be the subject of a declaration to the approved control body within minimum time limits set in the control or inspection plan of between five and fifteen working days before release for consumption. This declaration may also be made for lots already packaged, within minimum time limits set in the control or inspection plan of between five and fifteen working days before the lots concerned are dispatched from the operator's cellars. It specifies in particular:

- the identity of the operator;

- the EVV or SIRET number;

- the identification of the lot;

- the volume of the lot;

- the lot number for wines already packaged;

- the identification of the containers for non-packaged wines;

- the date of packaging or the planned date of packaging.

5. Declaration relating to the dispatch outside the national territory of a non-packaged wine

Every operator wishing to dispatch outside the national territory a non-packaged wine benefiting from the controlled designation of origin must declare it to the approved control body within time limits set in the control or inspection plan of between five and fifteen working days before any dispatch.

6. Fallback declaration

Every operator marketing a wine benefiting from the designation of origin under a more general appellation must declare it to the defence and management body and to the approved control body:

- at the same time as the declaration prior to transaction, if the wine is the subject of a bulk transaction after the fallback;

- at the same time as the packaging declaration, if the wine is packaged after the fallback;

- within time limits set in the control or inspection plan of between five and fifteen working days following the recording of the fallback in the wine register, if the wine is the subject of a fallback after packaging.

The defence and management body and the approved control body inform, respectively and without delay, the defence and management body of the more general appellation concerned and the approved control body for the more general appellation concerned.

7. Downgrading declaration

Every operator carrying out a downgrading of wines benefiting from the controlled designation of origin sends the defence and management body and the approved control body a quarterly summary.

8. Declaration of renunciation of marketing with the mention "primeur" or "nouveau"

Every operator wishing to market without the mention "primeur" or "nouveau" a volume claimed with that mention in the claim declaration must declare it to the approved control body within time limits set in the control or inspection plan of between five and fifteen working days before any marketing.

9. Derogatory system

Operators whose number of preparations for release for consumption within the meaning of Article D. 644-36-I of the Rural Code exceeds a threshold set in the control or inspection plan, in number of preparations, number of containers or volume, per year, may opt, by derogation, for a quarterly summary declaration of the declarations referred to in points 3 and 5 above.

Operators whose number of preparations for release for consumption within the meaning of Article D. 644-36-I of the Rural Code of wines with the mention "primeur" or "nouveau" exceeds a threshold set in the control or inspection plan, in number of preparations, number of containers or volume, per year, may opt, by derogation, for a summary declaration of releases for consumption.

10. Declaration of equipment for TSE

Every operator holding a concentration apparatus must declare it upon purchase to the defence and management body, specifying its specifications. The defence and management body keeps an up-to-date list of operators holding such equipment and sends it each year to the National Institute of Origin and Quality at the latest on 1 September.

Every operator using a service provider declares it to the defence and management body, which draws up the list of these operators and sends it each year to the National Institute of Origin and Quality at the latest on 1 September.

11. Reworking of parcels

Before any development or any works liable to modify the morphology, the subsoil, the arable layer (including any addition of exogenous soil) or the structuring elements of the landscape of a parcel intended for the production of the controlled designation of origin, with the exception of classic deep-ploughing works, a declaration must be sent by the operator to the defence and management body at least 4 weeks before the planned start date of the works. The defence and management body transmits, without delay, a copy of this declaration to the services of the National Institute of Origin and Quality.

12. Declaration of adaptation of vine density by partial grubbing-up

Every operator adapting the density of vines by partial grubbing-up sends a declaration to the defence and management body at the latest on 31 July of the wine-growing year in which this operation is carried out. For the parcel(s) or parts of parcels concerned, the declaration specifies:

- the cadastral reference;

- the area;

- the new planting density.

II. – Keeping of registers

1. General plan of the storage places

Every vinifying operator must keep up to date and available for the approved control body a general plan of the storage places, allowing in particular the number, designation and capacity of the containers to be identified.

2. TSE register

Every operator carrying out partial concentration of musts must keep an up-to-date TSE register including in particular:

- the identification of the initial lot (volume and potential alcoholic strength);

- the volume of water evaporated;

- the identification of the lot after concentration (volume and potential alcoholic strength).

CHAPTER III

I. – Main points to be checked and evaluation methods

MAIN POINTS TO BE CHECKED	EVALUATION METHODS
A – STRUCTURAL RULES	
A1 – Location of operators within the immediate proximity area	Documentary check
A2 – Belonging of the planted parcels to the delimited area	Documentary check; on-site visit
A3 – Claimable production potential (grape varieties and proportion rules, monitoring of derogatory measures, planting density and trellising)	Documentary check; on-site visit
A4 – Processing, packaging and storage facilities	
Overall vat capacity	Documentary check; on-site visit

MAIN POINTS TO BE CHECKED	**EVALUATION METHODS**
State of upkeep of the cellar and equipment (hygiene)	On-site visit
Storage place and storage conditions	Documentary check; on-site visit
B – RULES LINKED TO THE PRODUCTION CYCLE	
B1 – Management of the vineyard	
Pruning	On-site visit
Average maximum load per parcel	On-site visit
Cultivation condition of the vine and other cultivation practices	On-site visit
B2 – Harvest, transport and ripeness of the grapes	
Ripeness of the grapes	Documentary check; on-site visit
Particular provision for transport of the harvest	Documentary check; on-site visit
B3 – Processing, elaboration, ageing, packaging, storage	
Oenological practices or treatments (enrichment, prohibited practices…)	Documentary check; on-site visit
Stock accounts, analytical traceability	Documentary check
B4 – Harvest declaration and claim declaration	
Missing vines	Documentary check (keeping of register); on-site visit
Authorised yield	Documentary check (check of declarations, monitoring of authorisations granted by the INAO services after their investigation of the operator's individual request)
VSI, volumes harvested in excess of the authorised yield	Documentary check: monitoring of destruction certificates
Claim declaration	Documentary check and on-site visit: compliance with procedures and time limits, consistency with the harvest and production declarations…; check of the release of products into circulation
C – CHECKS ON THE PRODUCTS	
Non-packaged wines (at collection)	Analytical and organoleptic examination
Wines placed on the market for the consumer before or after packaging	Analytical and organoleptic examination
Non-packaged wines intended for dispatch outside the national territory	Analytical and organoleptic examination of all lots
D – PRESENTATION OF THE PRODUCTS	
Labelling	On-site visit

II. – References concerning the control structure

Institut National de l'Origine et de la Qualité (INAO)

51, rue d'Anjou, 75008 PARIS

Tel.: (33) (0)1.53.89.80.00 – Fax: (33) (0)1.42.25.57.97 – Email: info@inao.gouv.fr

The INAO is the control authority ensuring compliance with the provisions of the present specification for products benefiting from the controlled designation of origin.
