SPECIFICATION OF THE CONTROLLED DESIGNATION OF ORIGIN "POMMARD"

CHAPTER I

I. – Name of the designation

Only wines meeting the specific provisions set out below may claim the controlled designation of origin "Pommard", initially recognised by the decree of 11 September 1936.

II. – Geographical denominations and complementary terms

The name of the controlled designation of origin may be supplemented by a name of climat of origin or by the term "premier cru", or by both, for wines meeting the production conditions laid down for these terms in the present specification.

III. – Colour and types of product

The controlled designation of origin "Pommard" is reserved for still red wines.

IV. – Areas and zones in which the various operations are carried out

1° – Geographical area

The harvesting of the grapes, the vinification, the elaboration and the ageing of the wines are carried out within the territory of the commune of Pommard in the Côte-d'Or department.

2° – Delimited parcel area

a) – The wines come exclusively from vines situated within the delimited parcel production area as approved by the National Institute of Origin and Quality at the session of the competent national committee of 16 September 1982.

The National Institute of Origin and Quality lodges with the town hall of the commune referred to in 1° the graphic documents establishing the parcel boundaries of the production area thus approved.

b) – In order to be able to add the term "premier cru", the wines come exclusively from vines situated within the particular delimited parcel production area as approved by the National Institute of Origin and Quality at the session of the competent national committee of 16 September 1982.

The National Institute of Origin and Quality lodges with the town hall of the commune referred to in 1° the graphic documents establishing the parcel boundaries of the production area thus approved.

The list of the climats classified as "premier cru" appears in the table below:

COMMUNE	CLIMAT NAME	LIEU-DIT
POMMARD	La Chanière	La Chanière (en partie)
	Les Charmots	Les Charmots
	La Platière	La Platière (en partie)
	Les Arvelets	Les Arvelets
	Les Saussilles	Les Saussilles
	Les Pézerolles	Les Pézerolles
	En Largillière	En Largillière
	Les Grands Epenots	Les Grands Epenots (en partie)
	Clos des Epeneaux	Les Grands Epenots (en partie)
		Les Petits Epenots (en partie)
	Les Petits Epenots	Les Petits Epenots (en partie)

	Les Boucherottes	Les Boucherottes
	Le Clos Micot	Le Clos Micot
	Les Combes Dessus	Les Combes Dessus
	Clos de Verger	Clos de Verger (en partie)
	Clos de la Commaraine	Clos de la Commaraine
	La Refène	La Refène (en partie)
	Clos Blanc	Clos Blanc
	Le Village	Le Village (en partie)
	Derrière Saint-Jean	Derrière Saint-Jean (en partie)
	Les Rugiens Bas	Les Rugiens Bas
	Les Chaponnières	Les Chaponnières (en partie)
	Les Croix Noires	Les Croix Noires (en partie)
	Les Poutures	Les Poutures (en partie)
	Les Bertins	Les Bertins
	Les Fremiers	Les Fremiers
	Les Jarolières	Les Jarolières
	Les Rugiens Hauts	Les Rugiens Hauts (en partie)
	Les Chanlins-Bas	Les Chanlins-Bas (en partie)

3° – Immediate proximity area

The immediate proximity area, defined by derogation for the vinification, the elaboration and the ageing of the wines, is made up of the territory of the following communes:

Côte-d'Or department: Agencourt, Aloxe-Corton, Ancey, Arcenant, Argilly, Autricourt, Auxey- Duresses, Baubigny, Beaune, Belan-sur-Ource, Bévy, Bissey-la-Côte, Bligny-lès-Beaune, Boncourt-le-Bois, Bouix, Bouze-lès-Beaune, Brion-sur-Ource, Brochon, Cérilly, Chambœuf, Chambolle-Musigny, Channay, Charrey-sur-Seine, Chassagne-Montrachet, Châtillon-sur-Seine, Chaumont-le-Bois, Chaux, Chenôve, Chevannes, Chorey-lès-Beaune, Clémencey, Collonges-lès-Bévy, Combertault, Comblanchien, Corcelles-les-Arts, Corcelles-les-Monts, Corgoloin, Cormot-le-Grand, Corpeau, Couchey, Curley, Curtil-Vergy, Daix, Dijon, Ebaty, Echevronne, Epernay-sous-Gevrey, L'Etang-Vergy, Etrochey, Fixin, Flagey-Echézeaux, Flavignerot, Fleurey-sur-Ouche, Fussey, Gerland, Gevrey-Chambertin, Gilly-lès-Cîteaux, Gomméville, Grancey-sur-Ource, Griselles, Ladoix-Serrigny, Lantenay, Larrey, Levernois, Magny-lès-Villers, Mâlain, Marcenay, Marey-lès-Fussey, Marsannay-la-Côte, Massingy, Mavilly-Mandelot, Meloisey, Merceuil, Messanges, Meuilley, Meursanges, Meursault, Molesme, Montagny-lès-Beaune, Monthelie, Montliot-et- Courcelles, Morey-Saint-Denis, Mosson, Nantoux, Nicey, Noiron-sur-Seine, Nolay, Nuits-Saint-Georges, Obtrée, Pernand-Vergelesses, Perrigny-lès-Dijon, Plombières-lès-Dijon, Poinçon-lès-Larrey, Pothières, Premeaux-Prissey, Prusly-sur-Ource, Puligny-Montrachet, Quincey, Reulle-Vergy, La Rochepot, Ruffey-lès- Beaune, Saint-Aubin, Saint-Bernard, Saint-Philibert, Saint-Romain, Sainte-Colombe-sur-Seine, Sainte- Marie-la-Blanche, Santenay, Savigny-lès-Beaune, Segrois, Tailly, Talant, Thoires, Vannaire, Vauchignon, Velars-sur-Ouche, Vertault, Vignoles, Villars-Fontaine, Villebichot, Villedieu, Villers-la-Faye, Villers- Patras, Villy-le-Moutier, Vix, Volnay, Vosne-Romanée et Vougeot.

Rhône department: Alix, Anse, L'Arbresle, Les Ardillats, Arnas, Bagnols, Beaujeu, Belleville, Belmont-d'Azergues, Blacé, Le Bois-d'Oingt, Le Breuil, Bully, Cercié, Chambost-Allières, Chamelet, Charentay, Charnay, Châtillon, Chazay-d'Azergues, Chénas, Chessy, Chiroubles, Cogny, Corcelles-en- Beaujolais, Dareizé, Denicé, Dracé, Emeringes, Fleurie, Frontenas, Gleizé, Jarnioux, Juliénas, Jullié, Lacenas, Lachassagne, Lancié, Lantignié, Légny, Létra, Liergues, Limas, Lozanne, Lucenay, Marchampt, Marcy, Moiré, Montmelas-Saint-Sorlin, Morancé, Nuelles, Odenas, Oingt, Les Olmes, Le Perréon, Pommiers,

Pouilly-le-Monial, Quincié-en-Beaujolais, Régnié-Durette, Rivolet, Saint-Clément-sur-Valsonne, Saint-Cyr-le-Chatoux, Saint-Didier-sur-Beaujeu, Saint-Etienne-des-Oullières, Saint-Etienne-la-Varenne, Saint-Georges-de-Reneins, Saint-Germain-sur-l'Arbresle, Saint-Jean-d'Ardières, Saint-Jean-des-Vignes, Saint-Julien, Saint-Just-d'Avray, Saint-Lager, Saint-Laurent-d'Oingt, Saint-Loup, Saint-Romain-de-Popey, Saint-Vérand, Sainte-Paule, Salles-Arbuissonnas-en-Beaujolais, Sarcey, Taponas, Ternand, Theizé, Vaux-en-Beaujolais, Vauxrenard, Vernay, Villefranche-sur-Saône, Ville-sur-Jarnioux et Villié-Morgon.

Saône-et-Loire department: Aluze, Ameugny, Azé, Barizey, Beaumont-sur-Grosne, Berzé-la-Ville, Berzé-le-Châtel, Bissey-sous-Cruchaud, Bissy-la-Mâconnaise, Bissy-sous-Uxelles, Bissy-sur-Fley, Blanot, Bonnay, Bouzeron, Boyer, Bray, Bresse-sur-Grosne, Burgy, Burnand, Bussières, Buxy, Cersot, Chagny, Chaintré, Chalon-sur-Saône, Chamilly, Champagny-sous-Uxelles, Champforgeuil, Chânes, Change, Chapaize, La Chapelle-de-Bragny, La Chapelle-de-Guinchay, La Chapelle-sous-Brancion, Charbonnières, Chardonnay, La Charmée, Charnay-lès-Mâcon, Charrecey, Chasselas, Chassey-le-Camp, Château, Châtenoy-le-Royal, Chaudenay, Cheilly-lès-Maranges, Chenôves, Chevagny-lès-Chevrières, Chissey-lès-Mâcon, Clessé, Cluny, Cormatin, Cortambert, Cortevaix, Couches, Crêches-sur-Saône, Créot, Cruzille, Culles-les-Roches, Curtil-sous-Burnand, Davayé, Demigny, Dennevy, Dezize-lès-Maranges, Donzy-le-National, Donzy-le-Pertuis, Dracy-le-Fort, Dracy-lès-Couches, Epertully, Etrigny, Farges-lès-Chalon, Farges-lès-Mâcon, Flagy, Fleurville, Fley, Fontaines, Fuissé, Genouilly, Germagny, Givry, Granges, Grevilly, Hurigny, Igé, Jalogny, Jambles, Jugy, Jully-lès-Buxy, Lacrost, Laives, Laizé, Lalheue, Leynes, Lournand, La Loyère, Lugny, Mâcon, Malay, Mancey, Martailly-lès-Brancion, Massilly, Massy, Mellecey, Mercurey, Messey-sur-Grosne, Milly-Lamartine, Montagny-lès-Buxy, Montbellet, Montceaux-Ragny, Moroges, Nanton, Ozenay, Paris-l'Hôpital, Péronne, Pierreclos, Plottes, Préty, Prissé, Pruzilly, Remigny, La Roche-Vineuse, Romanèche-Thorins, Rosey, Royer, Rully, Saint-Albain, Saint-Ambreuil, Saint-Amour- Bellevue, Saint-Boil, Saint-Clément-sur-Guye, Saint-Denis-de-Vaux, Saint-Désert, Saint-Gengoux-de- Scissé, Saint-Gengoux-le-National, Saint-Germain-lès-Buxy, Saint-Gervais-sur-Couches, Saint-Gilles, Saint- Jean-de-Trézy, Saint-Jean-de-Vaux, Saint-Léger-sur-Dheune, Saint-Mard-de-Vaux, Saint-Martin-Belle- Roche, Saint-Martin-du-Tartre, Saint-Martin-sous-Montaigu, Saint-Maurice-de-Satonnay, Saint-Maurice- des-Champs, Saint-Maurice-lès-Couches, Saint-Pierre-de-Varennes, Saint-Rémy, Saint-Sernin-du-Plain, Saint-Symphorien-d'Ancelles, Saint-Vallerin, Saint-Vérand, Saint-Ythaire, Saisy, La Salle, Salornay-sur- Guye, Sampigny-lès-Maranges, Sancé, Santilly, Sassangy, Saules, Savigny-sur-Grosne, Sennecey-le-Grand, Version n° 2.2 du 21/092010 Procédure nationale d'opposition suite à l'avis de la commission permanente du comité national des appellations d'origine relatives aux vins et aux boisons alcoolisées, et des eaux-de-vie du 09/09/2010 Cahier des charges de l'appellation d'origine contrôlée « Pommard » Senozan, Sercy, Serrières, Sigy-le-Châtel, Sologny, Solutré-Pouilly, Taizé, Tournus, Uchizy, Varennes-lès- Mâcon, Vaux-en-Pré, Vergisson, Vers, Verzé, Le Villars, La Vineuse, Vinzelles et Viré.

Yonne department: Accolay, Aigremont, Annay-sur-Serin, Arcy-sur-Cure, Asquins, Augy, Auxerre, Avallon, Bazarnes, Beine, Bernouil, Béru, Bessy-sur-Cure, Bleigny-le-Carreau, Censy, Chablis, Champlay, Champs-sur-Yonne, Champvallon, Chamvres, La Chapelle-Vaupelteigne, Charentenay, Châtel-Gérard, Chemilly-sur-Serein, Cheney, Chevannes, Chichée, Chitry, Collan, Coulangeron, Coulanges-la-Vineuse, Courgis, Cravant, Cruzy-le-Châtel, Dannemoine, Dyé, Epineuil, Escamps, Escolives-Sainte-Camille, Fleys, Fontenay-près-Chablis, Gy-l'Evêque, Héry, Irancy, Island, Joigny, Jouancy, Junay, Jussy, Lichères-près- Aigremont, Lignorelles, Ligny-le-Châtel, Lucy-sur-Cure, Maligny, Mélisey, Merry-Sec, Migé, Molay, Molosmes, Montigny-la-Resle, Mouffy, Moulins-en-Tonnerois, Nitry, Noyers, Ouanne, Paroy-sur-Tholon, Pasilly, Pierre-Perthuis, Poilly-sur-Serein, Pontigny, Préhy, Quenne, Roffey, Rouvray, Sacy, Saint-Bris-le- Vineux, Saint-Cyr-les-Colons, Saint-Père, Sainte-Pallaye, Sainte-Vertu, Sarry, Senan, Serrigny, Tharoiseau, Tissey, Tonnerre, Tronchoy, Val-de-Mercy, Vallan, Venouse, Venoy, Vermenton, Vézannes, Vézelay, Vézinnes, Villeneuve-Saint-Salves, Villiers-sur-Tholon, Villy, Vincelles, Vincelottes, Viviers, Volgré et Yrouerre. V.-

V. – Grape varieties

1° – Grape varieties

The wines come from the following varieties: - main variety: pinot noir N; - accessory varieties: chardonnay B, pinot blanc B, pinot gris G.

2° – Proportion rules on the holding

The accessory varieties are authorised only as a mixture of plants in the vines. Their total proportion is limited to 15 % within each parcel.

VI. – Management of the vineyard

1° – Training methods

a) – Planting density.
The vines present a minimum planting density of 9,000 plants per hectare, with a spacing between rows that may not be greater than 1.25 metre and a spacing between plants within the same row that may not be less than 0.50 metre.

The vines may be planted "en foule" (densely, without ordered rows) provided that the minimum planting density and a spacing between plants greater than 0.50 metre are respected.

b) – Pruning rules.
The wines come from vines pruned according to the following techniques:

- either by short pruning (vines trained in Royat cordon, bilateral cordon, goblet and fan), with a number of free eyes (buds) per plant less than or equal to 8;

- or by long single-Guyot pruning, with a number of free eyes per plant less than or equal to 8.

Whatever the pruning method, the vines may be pruned with additional free eyes provided that, at the phenological stage corresponding to 11 or 12 leaves, the number of fruit-bearing shoots of the year per plant is less than or equal to the number of free eyes defined for the pruning rules.

c) – Trellising rules and foliage height.
The height of the trellised foliage must be at least equal to 0.6 times the spacing between rows, the height of trellised foliage being measured between the lower limit of the foliage, established at least 0.30 metre above the ground, and the upper topping limit.

Where the vines are not goblet-pruned, they must compulsorily be raised on a stake or be trellised; the trellising must be maintained. Where the vines are planted "en foule", they are trained on stakes.

d) – Average maximum load per parcel.
The average maximum load per parcel is fixed at 9,000 kilograms per hectare.

e) – Threshold for missing vines.
The percentage of dead or missing vine plants referred to in Article D. 644-22 of the Rural Code is fixed at 20 %.

f) – Cultivation condition of the vine.
The parcels must be managed so as to ensure a good overall cultivation condition of the vine, which is reflected in particular by: - the control of a good sanitary condition making it possible to obtain healthy foliage and healthy berries; - the upkeep of the soil, namely the control of the grassing by a grassing height less than half the trellising height (height between the ground and the top trellising wire), and the control of erosion by an absence of apparent root.

2° – Other cultivation practices

a) – In order to preserve the characteristics of the soils that constitute a fundamental element of the terroir: - The chemical weeding of the headlands is prohibited. - Any substantial modification of the morphology, of the subsoil, of the arable layer or of the elements structuring the landscape of a parcel intended for the production of the controlled designation of origin is prohibited, with the exception of classic deep-ploughing works.

b) – Vine plantings and replacements may be carried out only with healthy plant material that has been the subject of a hot-water treatment or any other method making it possible to combat flavescence dorée.

3° – Irrigation

Irrigation is prohibited.

VII. – Harvest, transport and ripeness of the grapes

1° – Harvest

a) – The wines come from grapes harvested at proper ripeness.

b) – Particular harvesting provisions. No specific provision.

c) – Particular provisions for transport of the harvest. The harvest is protected from the rain during its transport and at its reception.

2° – Ripeness of the grapes

a) – Sugar richness of the grapes. Grapes presenting a sugar content lower than 180 grams per litre of must may not be considered as being at proper ripeness.

Where the name of the appellation is supplemented by a name of climat of origin or by the term "premier cru", or by both, for wines from the climats classified as premier cru, grapes presenting a sugar content lower than 189 grams per litre of must may not be considered as being at proper ripeness.

b) – Minimum natural alcoholic strength by volume. The wines present a minimum natural alcoholic strength by volume of 10.5 % vol.

Where the name of the appellation is supplemented by a name of climat of origin or by the term "premier cru", or by both, for wines from the climats classified as premier cru, the wines present a minimum natural alcoholic strength by volume of 11 % vol.

VIII. – Yields. – Entry into production

1° – Yield

The yield referred to in Article D. 644-25 of the Rural Code is fixed at 50 hectolitres per hectare.

Where the name of the appellation is supplemented by a name of climat of origin or by the term "premier cru", or by both, for wines from the climats classified as premier cru, the yield referred to in Article D. 644-25 of the Rural Code is fixed at 48 hectolitres per hectare.

2° – Limit yield

The limit yield referred to in Article D. 644-25 of the Rural Code is fixed at:

APPELLATION	**YIELD (hectolitres per hectare)**
AOC "Pommard"	58
AOC "Pommard" supplemented by a name of climat of origin or by the term "premier cru", or by both, for the wines from the climats classified as premier cru	56

3° – Maximum production yield

No specific provision.

4° – Entry into production of young vines

The benefit of the controlled designation of origin may be granted to wines coming from:

- parcels of young vines only from the 2nd year following that in the course of which planting was carried out in place before 31 July;

- parcels of young vines only from the 1st year following that in the course of which grafting in place was carried out before 31 July;

- parcels of vines that have been top-grafted, at the earliest in the 1st year following that in the course of which the top-grafting was carried out before 31 July, and once the parcels no longer contain any varieties other than those permitted for the appellation. By way of derogation, in the year following that in the course of which the top-grafting was carried out before 31 July, the varieties permitted for the appellation may represent only 80 % of the grape varieties of each parcel concerned.

5° – Particular provisions

No specific provision.

IX. – Processing, elaboration, ageing, packaging, storage

1° – General provisions

The wines are vinified in accordance with local, fair and constant usages.

a) – Reception and pressing. No specific provision.

b) – Blending of the varieties. The wines produced from parcels co-planted with a mixture of plants are vinified by blending of grapes.

c) – Malolactic fermentation. The wines present, at the packaging stage, a maximum malic acid content of 0.4 gram per litre.

d) – Analytical standards. The finished wines, ready to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code, present a maximum content of fermentable sugars (glucose + fructose) of 2 grams per litre.

e) – Oenological practices and physical treatments. - Subtractive enrichment techniques (SET) are authorised within the limit of a maximum concentration rate of 10 %. The apparatus used is equipped with a meter allowing the declaration of the volume of water eliminated. - The use of pieces of wood is prohibited. - After enrichment, the wines do not exceed a total alcoholic strength by volume of 13.5 %. Where the name of the appellation is supplemented by a name of climat of origin or by the term “premier cru”, or by both, for wines from the climats classified as premier cru, the wines do not exceed, after enrichment, a total alcoholic strength by volume of 14 %.

f) – Prohibited equipment. Continuous presses are prohibited.

g) – Overall vat capacity. Every operator must have an overall vat capacity (vinification and storage) at least equal to 150 % of the volume of wine vinified for the harvest of the previous year, entered either on the harvest declaration in proportion to the evolution of the area in production of the holding, or on the production declaration.

h) – Good overall condition of upkeep of the cellar (floor and walls) and of the equipment (hygiene). The cellar and the equipment are well maintained; this is reflected in particular by: - a general hygiene of the elaboration premises with a state of general cleanliness, maintained floors, an adequate drainage and a covering avoiding stagnation; - a harmlessness of the materials and products coming into contact with the wine; - a separation and a specificity of the premises: the premises not having the same functions must be separated, such as the storage zones for plant-protection products, cleaning products or hydrocarbons from the vinification, ageing and dry-materials storage premises (corks, cartons); - a management of the wine effluents: the effluents must be removed as quickly as possible from the foodstuff premises, deposited in well-maintained containers, easy to clean and having a closure. The waste storage areas must be kept clean; the waste must be eliminated in a hygienic manner and in compliance with the environment; a waste storage and evacuation zone must be provided; - an absence of risk or odorous substances in the vinification, ageing and storage premises (odour).

i) – Ageing. - The wines undergo ageing at least until 15 June of the year following that of the harvest. - The temperature of the containers during the ageing phase must be controlled and less than or equal to 25 °C.

2° – Provisions by type of product

No specific provision.

3° – Provisions relating to packaging

For each packaged lot, the operator keeps available for the approved control body: - the information appearing in the register of handling operations referred to in Article D. 644-36 of the Rural Code; - the analysis reports carried out before packaging allowing the analytical monitoring of the packaged lots. These reports are kept for a period of six months from the date of packaging.

4° – Provisions relating to storage

The operator demonstrates a protected storage place for the products packaged in bare bottles meeting the following conditions: - temperature: between 5 °C and 22 °C.

5° – Provisions relating to the movement of products and to placing on the market for the consumer

a) – Date of placing on the market for the consumer. At the end of the ageing period, the wines are placed on the market for the consumer only after 30 June of the year following that of the harvest.

b) – Period during which the wines may not move between approved warehouse keepers. No specific provision.

X. – Link with the origin

[No text in this version of the specification.]

XI. – Transitional measures

Training method

Parcels of vines in place before 1980, situated outside the delimited vineyard of the controlled designation of origin “Bourgogne” followed by the geographical denominations “Hautes Côtes de Beaune” and “Hautes Côtes de Nuits”, not complying with the provisions relating to the planting density laid down in the present specification and trained in “single-plane” trellising, continue to benefit, for their harvest, from the right to the controlled designation of origin until the 2010 harvest, subject to: - presenting a planting density greater than 3,000 plants per hectare; - being pruned with a maximum of 6 free eyes per square metre; - having a trellised foliage height at least equal to 1.50 metre, the height of trellised foliage being measured between the lower limit of the foliage, established at least 0.30 metre above the ground, and the upper topping limit. The volume that may be claimed under the controlled designation of origin is calculated on the basis of the yield authorised for the controlled designation of origin to which the coefficient of 0.80 is applied.

XII. – Rules of presentation and labelling

1° – General provisions

Wines for which, under the terms of the present specification, the controlled designation of origin “Pommard” is claimed and which are presented under the said appellation may not be declared after the harvest, offered to the public, dispatched, put up for sale or sold unless, in the harvest declaration, in advertisements, on leaflets, labels, invoices and any containers whatsoever, the aforesaid controlled designation of origin is entered and accompanied by the term “Appellation d'origine contrôlée”, all in very conspicuous characters.

2° – Particular provisions

For wines from parcels classified as premier cru as defined at point IV (2°), where the appellation is supplemented by the name of the climat of origin, it must be placed after that of the appellation and printed

in characters whose dimensions, both in height and in width, must not exceed those of the appellation.

For wines from the other parcels, where the appellation is supplemented by the name of the climat of origin, it must be placed after that of the appellation and printed in characters whose dimensions, both in height and in width, must not exceed half those of the appellation.

CHAPTER II

I. – Declaration obligations

1. Claim declaration

The claim declaration must be sent to the defence and management body at least fifteen days before movement between approved warehouse keepers and at the latest on 1 December of the year of harvest. It indicates in particular:

- the designation claimed;

- the volume of the wine;

- the EVV or SIRET number;

- the name and address of the applicant;

- the place of storage of the wine.

It is accompanied in particular by a copy of the harvest declaration and, as the case may be, a copy of the production declaration or an extract of the stock accounts for buyers of grapes and musts.

2. Prior declaration of transaction and removals

Every operator wishing to market in bulk a wine benefiting from the controlled designation of origin must make, to the approved control body, a transaction declaration for the lot concerned within time limits set in the control or inspection plan, between six and fifteen working days before any removal. This declaration, accompanied where applicable by a copy of the purchase contract, specifies in particular: - the identity of the operator; - the EVV or SIRET number; - the identification of the lot; - the volume of the lot; - the identification of the containers; - the identity of the buyer. In the event of removals carried out for volumes lower than those determined in the transaction declaration, the operator must inform the control body in writing.

3. Declaration of release for consumption

Each lot of wine intended to be released for consumption within the meaning of Article D. 644-36-I of the Rural Code must be the subject of a declaration of release for consumption to the approved control body within minimum time limits set in the control or inspection plan, between six and fifteen working days before the release for consumption. This declaration may also be established for already-packaged lots within minimum time limits set in the control or inspection plan, between six and fifteen working days before the dispatch of the lots concerned from the operator's cellars. It specifies in particular: - the identity of the operator; - the EVV or SIRET number; - the identification of the lot; - the volume of the lot; - the lot number for already-packaged wines; - the identification of the containers for non-packaged wines.

4. Declaration relating to the dispatch outside the national territory of a non-packaged wine

Every operator wishing to carry out a dispatch outside the national territory of a non-packaged wine benefiting from the controlled designation of origin must declare it to the approved control body within time limits set in the control or inspection plan, between six and fifteen working days before any dispatch.

5. Fallback (repli) declaration

Every operator marketing a wine benefiting from the controlled designation of origin under a more general appellation must declare it to the defence and management body and to the approved control body: - concomitantly with the prior transaction declaration if the wine is the subject of a bulk transaction after the fallback; - concomitantly with the packaging declaration if the wine is the subject of a packaging after the

fallback; - within time limits set in the control or inspection plan, between six and fifteen working days following the recording of the fallback on the wine register, if the wine is the subject of a fallback after packaging. The defence and management body and the approved control body inform, respectively and without delay, the defence and management body of the more general appellation concerned and the approved control body for the more general appellation concerned.

6. Downgrading declaration

Every operator carrying out a downgrading of wines benefiting from the controlled designation of origin sends to the defence and management body and to the approved control body a quarterly summary.

7. Declaration of apparatus for SET

Every operator holding a concentration apparatus must declare it, as soon as it is purchased, to the defence and management body, specifying the specifications. The defence and management body keeps up to date the list of operators holding an apparatus and transmits it each year to the service of the National Institute of Origin and Quality at the latest on 1 September. Every operator calling upon a service provider declares it to the defence and management body, which draws up the list of these operators and transmits it each year to the service of the National Institute of Origin and Quality at the latest on 1 September.

8. Reworking of parcels

Before any development or any works liable to modify the morphology, the subsoil, the arable layer (including any addition of exogenous soil) or the elements structuring the landscape of a parcel intended for the production of the controlled designation of origin, with the exception of classic deep-ploughing works, a declaration must be sent by the operator to the defence and management body at least 4 weeks before the date scheduled for the start of the envisaged works. The defence and management body transmits, without delay, a copy of this declaration to the services of the National Institute of Origin and Quality.

9. Derogatory system

Operators who carry out at least 5 transactions per week and/or at least 42 preparations for release for consumption within the meaning of Article D. 644-36-I of the Rural Code per year may group together their transaction, release-for-consumption and fallback declarations. In this case, they must provide to the approved control body their forecast of transaction, release for consumption and fallback, then transmit the quarterly summary of all the declarations referred to at points 2, 3 and 5 above.

II. – Keeping of registers

1. General plan of the storage and vinification premises

Every vinifying operator must keep up to date and available for the approved control body a general plan of the storage and vinification premises, allowing in particular the number, designation and capacity of the containers to be identified.

2. SET register

Every operator implementing the partial concentration of musts must keep up to date a SET register comprising in particular: - the initial volume; - the volume of water evaporated; - the identification of the lot after concentration (volume and potential alcoholic strength).

CHAPTER III

I – Main points to be checked and evaluation methods

MAIN POINTS TO BE CHECKED	EVALUATION METHODS
A – STRUCTURAL RULES	
A1 – Location of the operators in the immediate proximity area	Documentary check

A2 – Belonging of the planted parcels to the delimited area	Documentary check (up-to-date CVI parcel record); visit in the field
A3 – Claimable production potential (grape varieties and proportion rules, monitoring of derogatory measures, planting density, plant material)	Documentary check and visits in the field (detail in the inspection plan)
A4 – Processing, ageing, packaging and storage facilities	
Vat capacity	Documentary check: general plan of the storage premises; on-site visit
Ageing (temperature control and ageing duration)	Documentary check: temperature recording and packaging declaration; on-site visit
Condition of upkeep of the cellar and equipment (hygiene)	On-site visit
